Smart Technology & Innovation in Gar-tex Machinery

InMac: Driving Innovation and Sustainability in the South Asian Textile & Apparel Industry

InMac the premier international machinery show, showcases the latest advancements in textile and apparel machinery and technology for the entire South Asian region. Hosted in Sri Lanka, a strategic hub for the region's textile and apparel sectors, InMac is designed to serve the powerhouse of the South Asian textile and apparel industry, one of the world's leading suppliers of textiles and garments. InMac provides the ideal platform for professionals, manufacturers, and industry leaders across South Asia to access and integrate state-of-the-art technology and machinery essential for meeting global quality and sustainability standards.

Co-located with 'Intex – The Premier International Sourcing Show', makes it a one-stop destination for domestic and international companies keen to launch innovative products, establish connections, and seize opportunities within a rapidly evolving market. With a reach extending beyond South Asia to Middle Eastern and Southeast Asian markets, InMac offers a unique networking experience with decision-makers, influencers, and peers across the entire supply and production value chain. InMac is more than an exhibition; it is a platform for growth, collaboration, and progression for South Asia's dynamic textile and apparel industry. By supporting the region's goals for efficiency, sustainability, and innovation, InMac plays an essential role in equipping the industry with the tools and technologies necessary for sustained global competitiveness.

InnoTech Zone - Your Gateway to Innovations in Textile & Apparel Manufacturing

Stay ahead of the curve in the rapidly evolving textile and apparel industry with InnoTech, the premier technology zone designed exclusively for this sector. As consumer demands shift and technological advancements accelerate, InnoTech offers an unparalleled platform to explore the latest innovations and gain valuable insights into the future of manufacturing. Discover a comprehensive showcase of cutting-edge solutions that can transform your operations and drive your business forward through smart technologies like automation & robotics, sustainable & energy-efficient technologies to minimize your environmental footprint as well as global certification to fulfil regulatory requirements ensuring product quality and compliance. InnoTech - Your platform for knowledge sharing, collaboration, and inspiration.

indychem

InDychem Zone - A focused platform dedicated to showcase the latest advancements in dyes, chemicals, colorants and textile solutions.

Committed to sustainability, innovation and efficiency, InDychem showcases cutting-edge solutions from eco-friendly dyes and pigments to advanced finishing processes. From enhancing colorfastness to reducing your environmental footprint, InDychem provides the solutions and connections you need to thrive in today's competitive textile market.

“

We are a leading Italian dyeing machine manufacturer. This is our first time participating in Sri Lanka, so this is also a new experience for us. We were very surprised honestly, because we were not accepting being here for the first time exhibition in the country, as well as being mainly a fabric exhibition and garment exhibition, so we booked a small booth this year. We really got a good response at this exhibition. We are quite happy and quite surprised honestly, because there was a good crowd. We developed many contacts, many potential customers, met existing customers, and also at this moment we feel that there is a positive hope in Sri Lankan customers in the future.

Andre Pinsero, Sales Manager, Danitech, Italy

”

Weera Industries (Pvt) Limited.

We are very happy with the whole set up and everything that has been provided. Most importantly the visitors who attended the exhibition are quality and mainly from the textile and apparel industry not anybody and everybody and this is what we exhibitors look forward to and that has been achieved. Hopefully some of the leads we got will generate into good business in the future.

Mr. Aslam Sattar, Weera Industries Pvt. Ltd., Sri Lanka

The Sri Lanka Advantage

Renowned for its high-quality products and ethical manufacturing practices as a manufacturer of garments without guilt, Sri Lanka exported garments worth \$4.5 billion in 2023.

As the industry continues to evolve, the Sri Lankan industry is actively developing backward linkages and creating value chains to enhance efficiency. This includes strengthening its textile manufacturing verticals while also offering optimized apparel solutions to global customers.

The industry's steady growth is driving demand for advanced machinery, particularly those that are energy-efficient, eco-friendly and capable of handling automation and customization.

As the Sri Lankan industry continues to adapt to global trends, investing in advanced technology, developing local value chains and prioritizing sustainability, the country is well-positioned to export high-quality products, making it a valuable partner for global brands.

Why InMac Matters...

Regional Hub:

InMac serves as the central hub for the textile and garment industry in South Asia, attracting professionals from across the region.

Global Reach:

InMac's strategic location and reputation draw visitors from the MENA, Central Asia and South Asia region, expanding market reach across industry hubs.

Access to the Latest Technology:

Discover the most advanced machinery and equipment to enhance operations and stay competitive.

Networking Opportunities :

Connect with key decision-makers from across the supply and production value chain. Network with potential partners and key stakeholders to build strong partnerships.

Market Insights:

Gain valuable insights into industry trends, market demands and new technologies.

Leads:

Generate sales leads and business enquiries.

Take advantage of this opportunity to connect with industry leaders and drive business forward.

Exhibit Profile

- Knitting
- Weaving
- Sewing
- Digital Printing
- Embroidery
- Blind Stitch
- Button Sewing
- Fabric Dyeing
- Fabric Cutters
- Laundry
- Fusing
- Packaging
- Steam Press
- Factory Automation Systems
- Laboratory & Testing Equipments
- Fabric Inspection & Measuring Tools
- Spare parts & Accessories
- Fashion Trends & Design Studios

and more

indychem

- Sustainable & Eco-friendly Dyes
- Textile Chemicals
- Reactive, Pigments and Auxiliaries
- Finishing Agents
- Printing Inks
- R&D Labs
- Allied Services

and more

inotech

- Fashion Design Software
- Apparel & Textile 3D/ CAD-CAM Software
- Textile Pattern Making Software
- Manufacturing Execution Systems (MES) Software
- Product Lifecycle Management (PLM) Software
- Supply-Chain Management Software
